

# Toothbrush and Toothpaste Graph

Activity can be done during circle time. Print up the sheets onto white card stock.

The first sheet is the toothbrush and toothpaste title. Trim and place in pocket holder.

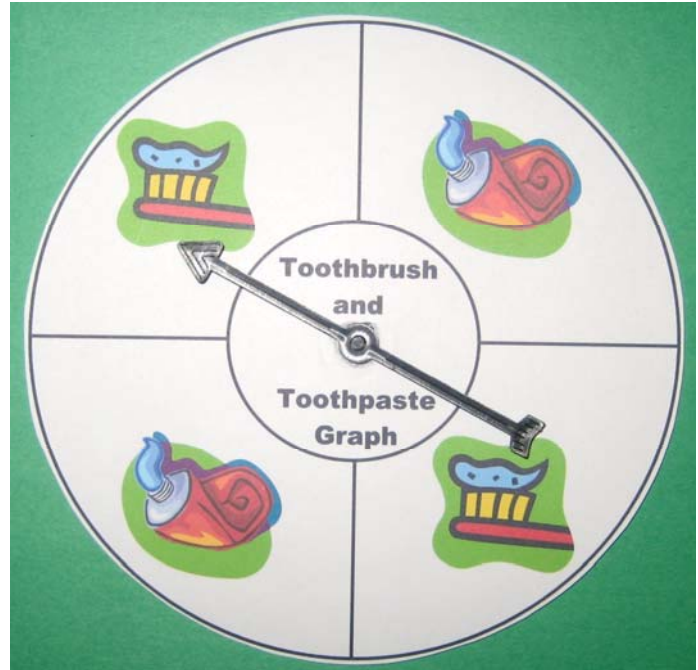

Second sheet is the toothbrush and toothpaste graph counting sheet. Each day have a child spin the spinner and then color in one of the squares for either the toothbrush or toothpaste.

Sheets 5 and 6 are toothbrush and toothpaste cards. After coloring the square on the graph sheet, have a child place either the toothbrush and toothpaste card in the pocket chart.

Print up spinner and trim.  
Laminate if desired.  
(Example not laminated).

Notes: Pocket chart purchased at Lakeshore Learning  
[www.lakeshorelearning.com/](http://www.lakeshorelearning.com/)

### Magnetic Small Pocket Chart

- 26" x 27" nylon pocket chart
- Hangs with magnetic strip or grommets
