

# Alphabet Practice

Print up on white card stock.  
Laminate. Using a wipe off marker or crayon, the children can practice writing the upper and lower case letter W w.

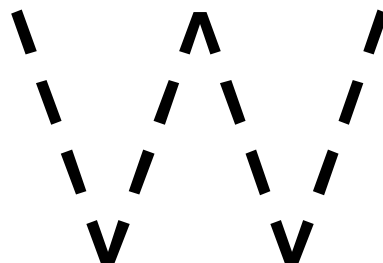

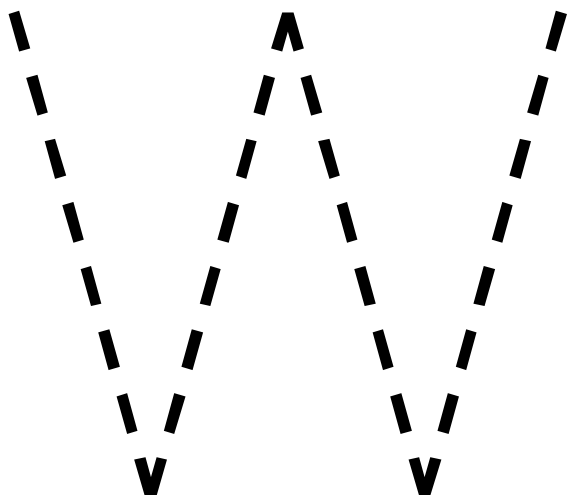

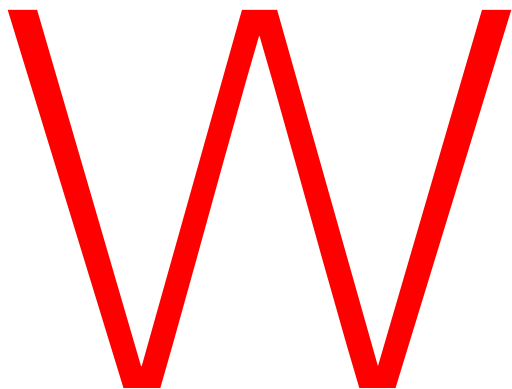

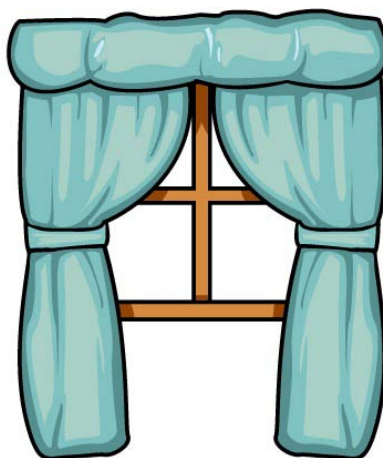

As you add more sheets to the alphabet practice, you can punch 2 holes in the top of each sheet, place in alphabet order, and attach using a key ring.

You will have an ABC practice book.

Additional idea: Place laminated sheets in your writing center for children to practice during the day.
