

# Mitten Handprint

## Supplies needed:

- Colored card stock - dark color to show white hand print. (Black, dark blue).
- Card stock - to glue mittens on when done.
- white paint
- paint brush
- scissors
- yarn
- glue or double sided tape
- assorted pom poms or cotton
- Poem - included

Directions:

Paint children's hands with white paint. You will be doing both hands.

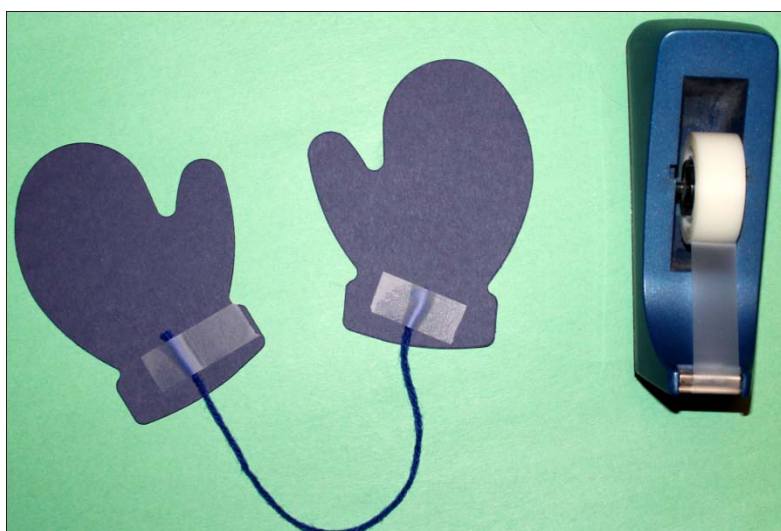

Place the child's painted hand onto black or dark blue paper and press - leaving a white hand print.

Hang up to dry.

When hand prints are dry, use the mitten template included with this file and cut out the handprints. Make sure you line up the mitten so that the thumb space goes into the mitten shape.

Another option is cutting out the shapes ahead of time, and paint their handprint directly onto the mitten.

Cutting a small piece of yarn, you can attach to the mittens with tape. Tape the string behind each mitten towards the bottom of the mitten.

Cut out the poem included in this file, attach to a small piece of card stock for matting. (The same color that you used for the mitten). Trim. Glue or using double sided

tape, attach to the top of a piece of different colored card stock. This is the start of your handprint mitten picture.

Attach the mittens.

Have children glue on pom poms or cotton balls.

(I used hot glue to attach the pom poms. Be very careful if you decide to use hot glue).

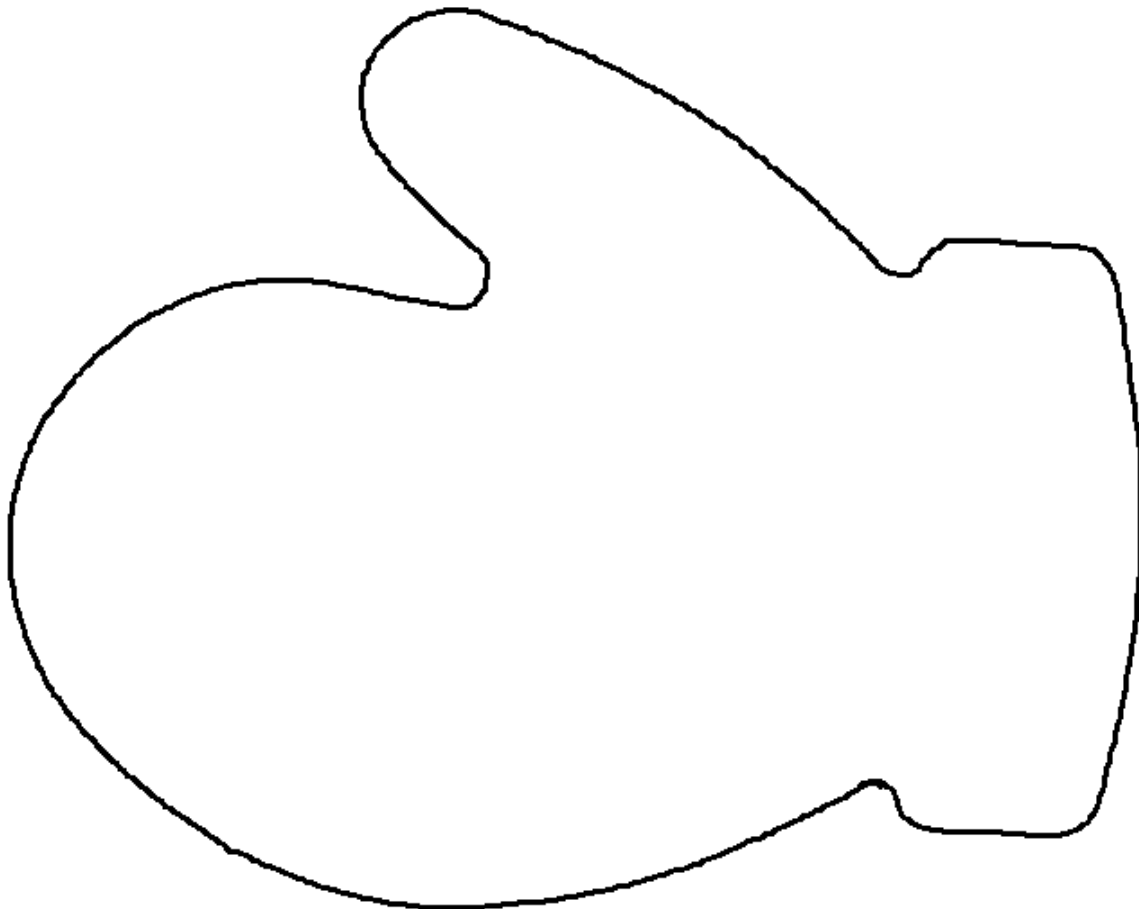

Hang up. Parents enjoy anything with their child's handprints, and this cute craft is no exception!

## Mitten Template

Print up on white card stock.

Cut out.

Use mitten template to trace the shape onto blue or black card stock for mitten craft.

Print up the following sheet onto white card stock.

Trim.

Attach to card stock or construction paper for matting, trim and attach to the handprint picture using double sided tape or glue.

Into the mittens my hands will go.  
Bundle up warm to play in the snow!
