

MOM Picture

A simple and easy Mother's Day gift that parents will cherish for years.

Supplies needed:

- Camera
- Large letters M & O (Can be purchased at Michael's or JoAnn's)
- Picture frame with 3 slots
- Children

Take 3 pictures of each child. Holding an M (twice) and O, so once you are done the 3 pictures when placed in the frame will spell mom.

If you have more than 1 child in the family, have children share letters to get all children into the pictures.

If using a digital camera, put memory card into computer, edit picture and change from color to B & W.

Load pictures to snapfish.com and order copies. So much cheaper than using your own ink and you can usually pick up the same day at Walgreens or WalMart.

I know this will be a favorite with mothers.
