

# Mother's Day Parent Magazine Cover

## Supplies needed:

- Parent's magazine cover template
- Photo quality paper
- Frame
- Picture of mother holding or standing next to child

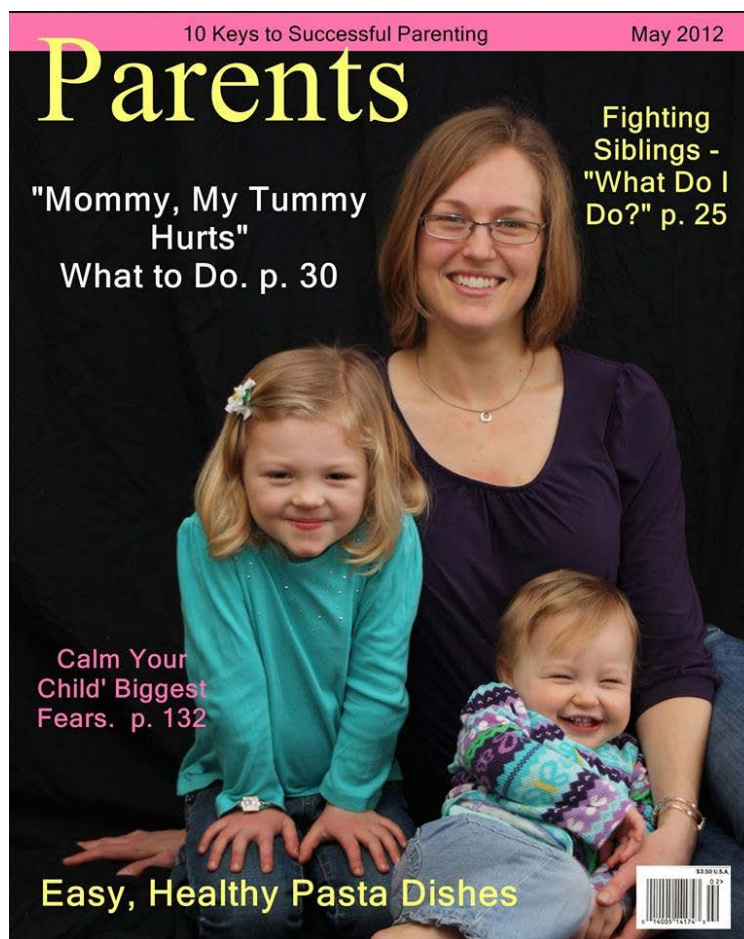

## Directions:

Take a picture of mom with child/ren or ask mother to take one and scan. Taking a picture is much easier.

You will need to have Microsoft Office to open the template of the Parents magazine. I left existing picture on the file so you can see the white writing of the file. Delete existing picture and add your own picture. You can edit the colors of the text, border at top. Make it your own. Move text around, change the articles. You have the idea with the current text.

Once you have the layout you want to use, print and frame.

Have children wrap for a Mother's Day gift mom's are sure to love!
