Number Writing and Counting

Google Slides can be viewed on various platforms, including the web browser, Google Drive, and the Google Slides app. Here are the different ways to view Google Slides presentations:

Web Browser: Access Google Slides by visiting the website (slides.google.com) and signing in with your Google account. You can create, edit, or view presentations directly from the web browser.

Google Drive: Open your Google Drive, navigate to the folder containing your Google Slides presentations, and click on the presentation you want to view.

Google Slides App: Download the Google Slides app from the App Store or Google Play Store. Open the app, sign in with your Google account, and access your presentations.

These platforms provide a convenient way to view and manage your Google Slides presentations, whether you're at home, on the go, or collaborating with others.

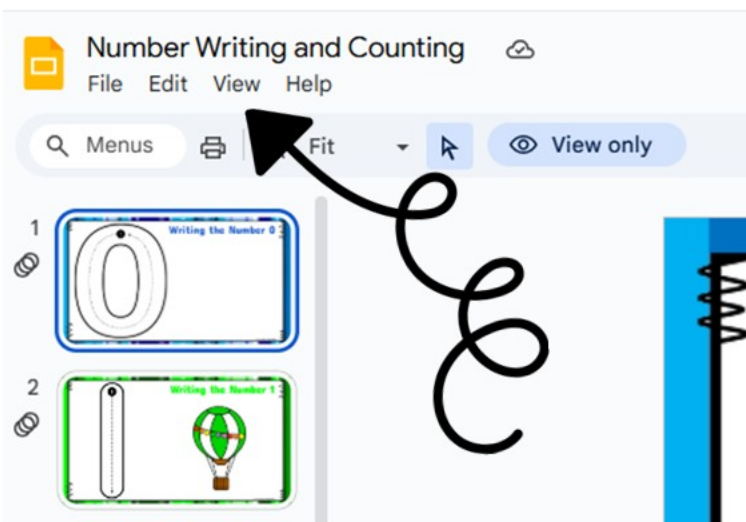

Number Writing and Counting

You can use computer or iPad in your program. This file will show children how to write their numbers 1 – 10.

Follow the directions below.

1. Click on picture to access the Number Writing and Counting File.

2. Click on view. There will be a drop-down bar. Click on slide show.

3. A new window will open up with a full screen of the file. (To exit you will click on the Esc button – upper left-hand corner).
4. The number 0 will stay on the screen until child either clicks on the screen or if using a computer hit the space bar).
5. Have a piece of paper and pencil or marker for child to practice writing the number on the screen. Go onto the next number.
6. (To exit you will click on the Esc button – upper left-hand corner).
